Compatible with:

The Hauppauge HD PVR Rocket is portable and USB-powered. Record your best gameplay at gaming events or at your friend's home. Simply plug a USB thumb drive into the slot on the front of the Rocket and you can start recording from your games console or PC. HD PVR Rocket records video at up to 1080p and can record from either HDMI (without HDCP protection) or Component Video.

Record your game commentary:

HD PVR Rocket has a built-in audio mixer, so you can record game commentary while you record your video gameplay.

Make your own YouTube channel and share your best gameplay with your friends

Once you have made your recordings, you can share them with your friends on YouTube. Make your own YouTube channel and get famous!

Amazing HD audio and video quality

HD PVR Rocket records at resolutions up to 1080P30 using H.264 video compression. The H.264 format is used by Blu-ray discs and exceeds other video compression standards in quality and disk space consumption, providing a crisp image and amazing digital sound. H.264 uses 1/3 the disk space compared with the popular MPEG-2 format.

Also connect to your PC and use Hauppauge Capture to make game recordings

HD PVR Rocket can also be connected to your PC. Use our Capture application to record gameplay, trim your videos and upload (or stream) them to YouTube.

HD PVR Rocket for PC gamers: Your personal HD recorder for your game play

Record your best gaming moves without slowing down your PC. The video compression is done inside HD PVR Rocket so you can record your PC gameplay in HD without slowing down your PC. Simply plug the HDMI out from your PC gaming system into the HD PVR and then connect HD PVR Rocket to your TV monitor.
